Education

2025 – 2026 International Visitor – **University of Pittsburgh** — Host: Mahrad Sharifvaghefi
2023 – 06/2027 Ph.D. Economics – **Getulio Vargas Foundation**
Supervisor: Marcelo Moreira (marcelo.moreira@fgv.br)
2019 – 2022 Bachelor's Degree – **University of Brasilia** — Advisor: Maurício Bugarin

Experience

Research Assistant at Getulio Vargas Foundation Jun 2025 - Aug 2025

– Implemented a novel matrix rank test for financial factor models and random effects models using large asset datasets in R and Stata. Contributed to the paper "A No-Arbitrage Approach to Asset Pricing using Panel Data" (F. Araujo, A. F. Galvão, J. V. Issler).

Research Assistant at Getulio Vargas Foundation May 2025 - Aug 2025

– Implemented tests for weak instrumental variables in Python and Julia.

– Built a dataset of IV-based economics papers (2020-2025) and replicated main empirical results for validation and application of the new proposed tests.

Researcher at University of Brasilia Oct. 2021 - Jul. 2022

– Supervised the Professional Master's students theses on Machine Learning applications in Finance.

– Revised and elaborated Python and R code for ML models used in bank risk classification for credit assessment and systemic risk evaluation from lending.

Research Assistant at Laboratory of Machine Learning (LAMFO) Jul. 2020 - Dec. 2022

– Designed and delivered workshops on Natural Language Processing and Machine Learning.

– Developed empirical applications and teaching materials in Python, R, and Stata.

Research

- (WIP) Generative Approach for Variable Selection (with Adriana W. Henarejos and Luiz F. Maia).
- (WIP) A novel monetary policy shock: A Large Language Model approach (with João Pedro Maia).
- Dourado, F. S., M. R. T. Braga, P. W. S. Guerra, and V. D. A. N. Ferreira. 2021. "The Impact of the Coronavirus on Brazilian International Trade and Multilateral Globalization." O Eco da Graduação 6.

Technical Skills

Statistical Skills: Econometrics, Causal and Predictive Machine Learning, and Deep Learning
Technical Skills: Python, R, Stata, LATEX, Pytorch and Sci-kit Learning.
Language Skills: English (Fluent), Portuguese (Fluent) and Spanish (Conversational).

Teaching & Mentoring

Teaching Assistant: Calculus III & Microeconomics I (Undergraduate) Spring 2025

Mentoring: Professional Master's dissertations Oct 2021 – Jul 2022

Teaching Assistant: Quantitative Economics I (Undergraduate) Spring 2020
